

Learning Through Play in the Early Years

Our learning environment is carefully organised to allow all children to learn through play for all of the curriculum areas. Staff plan activities for the children using the children's own interests as hooks for learning. Children are given the freedom to explore the environment and investigate independently through carefully planned play opportunities. There are very real learning purposes for each and every play activity a child completes. We believe that this allows children to learn and progress whilst enjoying every minute! Happy children are children who learn.

The Early Years curriculum has seven areas of learning:

Communication and Language

Physical Development

Personal, Social and Emotional Development

Literacy

Mathematics

Creative Development

Understanding the World
